

Prevent unplanned **PREGNANCIES**

DID YOU KNOW?

- Thousands of unwanted cats and dogs end up at shelters and pounds each year with an unknown future due to the fact that people are simply NOT getting their pets desexed
- A cat from 4 months old can have up to 3 litters per year, resulting in thousands and thousands of unwanted animals in our community

WHAT IS OPERATION WANTED?

Operation Wanted is a major annual desexing initiative marking the collaboration of local councils, local participating veterinary clinics and RSPCA Queensland.

It runs from June 1 to August 31 and has run for the past five years. It has resulted in over 100,000 animals being desexed, and therefore up to 600,000 fewer unwanted animals throughout Queensland that could end up in council pounds or shelters.

No animal should be homeless. You can help by desexing your pet.

The benefits of desexing

- ↑ Reduces the desire to roam
- ♥ Allows your pet to be happier and healthier
- ⊕ Reduces the risk of some cancers
- 🐱 Removes the risk of unwanted litters
- 💰 Cheaper council registration fees
- 💧 Reduces behaviours such as urine spraying in cats
- 🐕 Reduces aggressive behaviours in dogs

20% OFF DESEXING

June 1 - Aug 31
